KANITHI SATYA SATHVIK

Frontend Developer | Full-Stack Software Engineer

Bengaluru, India | +91 9515136729 | kanithisathvik@gmail.com
Portfolio | GitHub | LinkedIn | LeetCode

Professional Summary

Software Engineer with hands-on experience building and deploying full-stack web applications using React, TypeScript, JavaScript, Node.js, REST APIs, and databases. Experienced in authentication, data-driven interfaces, backend integrations, automated testing, debugging, and production deployments. Focused on delivering reliable products from frontend implementation through backend development, testing, and deployment.

Technical Skills

Frontend: React, TypeScript, JavaScript, HTML5, CSS3, Vite, Responsive Design
Backend: Node.js, Express.js, Python, FastAPI, REST APIs
Databases & Security: MongoDB Atlas, SQL, Data Modelling, bcrypt, Session Management, Zod
Testing: Playwright, Vitest, Supertest, E2E Testing, API Testing, Debugging
Tools & Deployment: Git, GitHub, Vercel, Render, Environment Configuration, CI/CD Fundamentals
Additional: AI API Integration, LLM-Powered Applications, Streamlit

Experience

Software Development Engineer Intern | Logikality *May 2026 – Present*
Bengaluru, India

- Translate product requirements and business rules into testable scenarios for LogikIntake and Title Intelligence.
- Develop Playwright page objects and end-to-end test specifications to validate application workflows.
- Investigate UI, document-processing, classification, and workflow defects; document reproducible steps and coordinate fixes.
- Contribute to QA strategy, requirement clarifications, bug tracking, technical documentation, and demo scenarios.

Projects

Trao – AI Interview Prep Kit Full-Stack Web Application
Live App | GitHub

- Built and deployed a full-stack application using React 19, TypeScript, Vite, Node.js, Express, and MongoDB Atlas.
- Implemented bcrypt password hashing, revocable hashed sessions, user-scoped data access, and Zod request validation.
- Developed API-backed interview preparation workflows, flashcards, mock interviews, company research, and readiness tracking.
- Added Vitest and Supertest automated tests and a batch evaluation CLI; deployed the frontend on Vercel and API on Render.

Personal Portfolio Frontend Development
Live Portfolio | GitHub Profile

- Designed and deployed a responsive portfolio presenting projects, skills, experience, and live application links.
- Created a consistent visual identity, clear navigation, and interactive elements to improve project discoverability.

NeuroResearch – Autonomous AI Research Engine Python Web Application
Live App | GitHub

- Built and deployed a research application combining uploaded document retrieval with live web search.
- Implemented PDF/TXT/Markdown ingestion, text chunking, embeddings, semantic retrieval, source attribution, and AI provider integrations with fallback handling.

Education

VIT-AP University *2022 – 2026*
B.Tech in Computer Science and Engineering (AI & ML) CGPA: 8.45/10
Sri Chaitanya Junior College *2020 – 2022*
Intermediate 90.7%

Certifications & Leadership

- Oracle Cloud Infrastructure 2025 – Generative AI Certified Professional
- AI Coder: Complete Claude Code & Coding Agents Course – Udemy, June 2026
- AI Engineer Production Track: Deploy LLMs & Agents at Scale – Udemy, October 2026
- Machine Learning Club, VIT-AP University – Member, supported technical workshops and peer learning (2023–2024).
