Summary

Final-year B.Tech (CSE – AI & ML) student specializing in **Large Language Models (LLMs)**, **Deep Learning**, and **Reinforcement Learning**. Experienced in building production-grade AI systems using **RAG pipelines**, **transformers**, **vector databases**, and **FastAPI**. Demonstrated ability to design scalable AI applications with real-world impact in automation, NLP, and intelligent systems.

Skills

Programming: Python, Java, SQL, HTML, CSS

AI/ML: Machine Learning, Deep Learning, LSTM, Reinforcement Learning, DQN, PPO, SARSA, XGBoost, Time-Series Forecasting

LLM/NLP: Retrieval-Augmented Generation (RAG), Hugging Face Transformers, DeBERTa-v3, Sentence Transformers, Embeddings, Semantic Search

Frameworks/Deployment: FastAPI, Flask, Streamlit, TensorFlow, PyTorch

Data & Tools: Pandas, NumPy, scikit-learn, FAISS, ChromaDB, MySQL, Git, GitHub, Jupyter

Soft Skills: Problem-Solving, Analytical Thinking, Communication, Leadership

Projects

Answer IQ – Retrieval-Augmented Knowledge Search System (GitHub)

Built RAG-based assistant using transformer embeddings and FAISS vector database to enable semantic search over unstructured documents. Integrated LLM for context-aware answer generation, improving response accuracy and enabling secure offline knowledge querying.

InsightRecruiter – AI Resume Screening Platform (GitHub)

Developed full-stack AI system using FastAPI, vector embeddings, and semantic similarity to automate resume screening. Implemented intelligent candidate ranking and LLM-based evaluation, reducing manual screening effort significantly.

Aspect-Based Sentiment Analysis – DeBERTa Transformer Deployment (HuggingFace)

Fine-tuned DeBERTa-v3 transformer for aspect-level sentiment classification. Built real-time inference pipeline and deployed production-ready NLP system on Hugging Face Spaces.

Autonomous Taxi Agent – Deep Reinforcement Learning System (GitHub)

Designed reinforcement learning agent using DQN, PPO, and SARSA in custom OpenAI Gym environment. Achieved **35% reduction in failed passenger drop-offs** and improved navigation efficiency.

Education

B.Tech, Computer Science (AI & ML), VIT-AP University 2022–2026

CGPA: 8.40/10

Intermediate, Sri Chaitanya Junior College 2020–2022

Percentage: 90.7%

Certifications

Oracle Cloud Infrastructure 2025 – Generative AI Certified Professional (Credential Link)

Achievements

Member, ML Club – VIT-AP University; led AI workshops and technical sessions.

Built and deployed multiple production-level AI systems using LLMs, transformers, and reinforcement learning.
